INTRODUCTION

Kauto Star v Denman, round two; the 2009 Cheltenham Gold Cup saw Kauto Star achieve what no other winner of the race had ever done; regaining his Gold Cup crown after losing it the season before: a feat to match Comedy of Errors back in 1975, the only Champion Hurdler to do the same; and the exploits of Red Rum, who won his third Grand National in 1977 after having to give best in the previous two years.

Not only was Kauto Star back at the top of the tree in the steeple chase rankings for 2008/09, but surprisingly the same six horses headed the steeple chase ratings as in the previous season. On the plus side this emphasises that we have seen some vintage steeple chasing over the last couple of years, but disappointingly it shows that the previous year's novices were not up to the standards of the reigning champions. Let us hope that the stars will shine again in 2009/10, but especially that the next generation can mount a serious challenge.

The health of both steeple chasing and hurdling was assured last season, with so much more strength in depth among the contenders for Pattern race success than we could have dreamed of a decade ago, with the result that once again nearly every Pattern race has exceeded its quality standard. It has sometimes been suggested that Pattern race parameters, and therefore the qualification for catalogue black type, should be allocated retrospectively along some sort of a sliding scale, so that only a pre-planned percentage of the top horses and top races qualify; that if there are a lot of high ratings one year then the qualification for races to remain in the Pattern should be raised too, the implication being that if more horses are highly rated now than used to be, then it is self-evident that the qualification level must now be too low; that exams are getting too easy.

That argument misses the point. The British Horseracing Authority handicappers are meticulous in comparing the form of any particular year with its predecessors, and it is not remotely reasonable for the performances of any particular horse (or any particular Pattern Race for that matter) to be belittled, just because there are a number of other good horses around at the time. The Pattern must provide enough opportunities for the best horses throughout the season in every category, otherwise it is not a Pattern. If there are plenty of horses whose connections think that they will be competitive in those races, all the better for competition, the public interest and the spectacle. Only if a race for whatever reason fails to attract enough of the best horses is it likely to disappear from the list.

All that having been said, the Jump Racing Sub-Committee (in its role as the Pattern Panel) is always alert to fluctuations in quality among the horse population as a whole and each race individually. The parameters which qualify a race for the Pattern are always under review. Particularly, it may well be that the parameters for novice races are indeed becoming too low, having regard to

the introduction of more precocious stock (chiefly from France) and changing fashions in training and placing novice horses. However that is a matter for the future. Currently the parameters remain the same.

Accordingly, only one race drops out of the book this year, the Listed Molyneux Novices Steeple Chase at Aintree in October, which will still exist, but outside the Pattern. The Championship Bumper at Ascot in December drops from Grade 2 to Listed.

A succession of quality renewals leads to the totesport Bowl Steeple Chase and the Liverpool Hurdle at the Aintree Grand National meeting being promoted to Grade 1, and the totepool Handicap Hurdle at the same meeting moves from Listed to Grade 3. The Lightning Novices' Steeple Chase (Grade 2) in January leaves Ascot for a new home at Doncaster.

The Peterborough Steeple Chase (Grade 2) at Huntingdon was thoroughly successful on its new date in December, and retains that place in the calendar. In consequence there would have been an undesirable gap in the two and half mile steeple chase programme between the Old Roan (Grade 2) in October and the Peterborough. This gap is now filled by the conversion of Ascot's 1965 Steeple Chase (Grade 2) to a conditions event open to all, in November.

You will also find six new Listed races in this book, including notably the Topham Steeple Chase at Aintree and the first Fixed Brush Hurdle Race to achieve Listed status. These are all quality races which are well placed in the programme.

There are many other races which would qualify on ratings, particularly at Listed level, which by itself means that these are good races attracting quality horses. Long may they continue to do so and to push for inclusion in a vigorous Pattern of opportunities.

But what of economic uncertainties? Will there be fewer horses in training for jumping in the coming season and fewer quality horses? At present the horse population seems to be holding up well, but we must always be vigilant. Of course economic difficulties place a strain not just on racehorse owners, but also upon sponsors and racecourses, and indeed the Horserace Betting Levy Board, all of whom provide the prize money to sustain the Pattern. All the more gratitude therefore to the sponsors, whose support for the great races is generally unwavering, and to the racecourses who realise how vital even the lesser-known novice Pattern races are for the health of the sport as a whole, and who continue to earmark a sizeable proportion of their prize money allocation to support these races. Good luck to them and to all the participants for the season ahead.

ESR = End Of Season Rating

For abandoned races, the four highest rated declarations or entries are used.

Ratings in italics are for those renewals which took place before the race was upgraded to Class 1.

ANGLO-IRISH JUMP CLASSIFICATIONS 2008-2009

This is the tenth full Anglo-Irish Jump Classification. It classifies the best steeplechasers and hurdlers that were trained in either Britain or Ireland or that ran in Britain or Ireland during the 2008-2009 season.

Thus it contains French and German trained horses if their performances merited inclusion. It is not a handicap but a retrospective measurement of best sustainable performances during the recent season.

The classifications are for all chasers and hurdlers down to a rating of 140. The steeplechasers are divided into distance categories of 2 miles, 2.5 miles and 3 miles plus and are included in the list in which the handicappers believe they have put up their best performance. Champions may be included twice if they have put up their best performance in a different category.

The hurdle categories are similar except that they are divided into two distances of 2 miles and 2.5 miles plus.

There is a separate classification identifying Novices rated above 140. Juvenile Hurdlers are included in the Novice section.

Horses trained in Ireland have * appended after their name. Horses trained in France have ** appended and horses trained in Germany have *** appended. Mares are in italics.

The ratings were agreed and compiled by:

Phillip Smith	Great Britain
Noel O'Brien	Ireland
David Dickinson	Great Britain
Martin Greenwood	Great Britain
Stephen Hindle	Great Britain
John de Moraville	Great Britain
Andrew Shaw	Ireland

GROUND RULES FOR THE JUMP PATTERN

1. INTRODUCTION

- a) The Jump Pattern will be administered by the Jump Racing Sub Committee of the British Horseracing Authority, reporting to the British Horseracing Authority's Racing Committee. The Secretariat will be provided by the British Horseracing Authority's Racing Department.
- b) The Jump Racing Sub Committee will aim to achieve a balance of Graded races within the Pattern, so that there are more Grade 2 races than Grade 1, and that the total number of Grade 2 races should exceed the combined number of Grade 1 and 3 races.
- c) All Jump races within Great Britain will be eligible to apply for Pattern status provided they comply with the criteria set out below.

2. GENERAL RULES FOR RACES IN THE JUMP PATTERN

Every race in the Jump Pattern must conform to the following rules:

- a) It should have no indigenous conditions.
- b) Grade 1 and 2 races must have a permanent element in the title, to which a prefix or suffix may be added.
- c) It must justify its grading by the quality of its runners, assessed primarily by the ratings of the best four horses, over a rolling three-year period.
- d) The Pattern Race ratings below are the standard that a race should achieve to justify Pattern status.

Grade	Hurdles	Chases	NHF races	Mares' races
Grade 1	155	155		n/a
Grade 1 (Novice)	135	135	130	n/a
Grade 2	145	145		138
Grade 2 (Novice)	125	125	120	n/a
Grade 3	140	140		n/a
Grade 3 (Novice)	120	n/a	n/a	n/a

A Pattern Race rating is the average of the annual ratings achieved by a race over a three-year period. The annual rating is the average of the end of season handicap ratings of the four highest rated horses in the race. If a race attracts less than four runners, then a rating of 100 will be inserted to make up the fourth (and where necessary third) rating. Where a race has been abandoned, the annual rating is calculated by taking an average of the four highest rated entries in the race at the time of abandonment. In addition, the actual weight allowance received by any fillies and mares running in an open competition Jump Pattern or Listed race will be added to their official ratings for the sole purpose of calculating a Pattern or Listed Race rating. The parameters of Mares' races are set at seven pounds lower than open competition Jump Pattern and Listed races because Mares in open competition receive a seven pound allowance which needs to be accounted for to compare races on a level basis.

For information, the rating parameters that should be achieved by Listed races are as follows:

Grade	Hurdles	Chases	NHF races	Mares' races		
				Hurdles	Chases	NHF races
Listed	135	135		128	n/a	
Listed (Novice)	115	115	110	108	108	103

- e) Grade 1 races must be run with no penalties or allowances other than a sex allowance. Grade 2 races must be weight-for-age races or limited handicaps. Grade 3 races must be open handicaps with no rating band restriction.

(Note: A Pattern race below Grade 1 which is open only to first and second season Novices may have a restriction of rating placed within the race conditions, by permission of the Committee).

3. CHANGES TO THE JUMP PATTERN

Any changes to races within the Jump Pattern must be agreed by the Jump Racing Sub Committee and subsequently approved by the Racing Committee. All proposed changes for the forthcoming season must be submitted to the Racing Department by the end of May. No applications will be considered after this date, unless otherwise directed by the Board in exceptional circumstances. For the purposes of the Ground Rules, changes are defined as:

- a) Any change of a Grade of a Pattern race.
- b) Any change to the conditions or date of a Pattern race.
- c) Any change to the permanent element in the name of a Pattern race.
- d) A change of more than 50% in the total value of a Grade 2 or 3 Pattern race.
- e) The introduction of a new Pattern race.
- f) The deletion of an existing Pattern race.

4. RULES GOVERNING JUMP PATTERN RACE CHANGES

- (a) The following rules shall apply to the upgrading of races by Grade and admission of new races to the Pattern, and shall be waived only in exceptional circumstances.
 - (i) To qualify for upgrading or admission to the Pattern, a race must have been run with similar conditions and comparable prize money, and on approximately the same date, for the last three years at least.
 - (ii) Promotion or admission of a race must be justified by the quality of the runners, assessed by the ratings of the best four horses, in the last three years at least. The criteria shall be the standard ratings for Pattern Grades set out in paragraph 2.4.
 - (iii) No race shall be eligible for promotion to Grade 1 or 2 if this would involve a clash liable to have adverse effects on an existing Grade 1 or 2 race.
 - (iv) A new race satisfying the requirements for admission to the Pattern must be introduced as a Grade 2 race (if a weight-for-age event or limited handicap) or a Grade 3 race (if an open handicap).

- (b) The following rules shall apply to the downgrading/deletion of Pattern races:-
- (i) At the Jump Racing Sub Committee's end of season meeting, any race will be subject to downgrading/deletion if its Pattern Race rating (three-year average of the annual ratings) is below the required parameter.
 - (ii) If the Sub Committee decides that a race should be downgraded or deleted from the Pattern, the relevant racecourse will be notified and offered one further running of the race in an attempt to rectify its failings. However, the Sub Committee must be satisfied that the racecourse in question can devise effective measures to encourage runners of the required quality.
 - (iii) If the Sub Committee decides not to downgrade or delete Pattern status from a race which has achieved a Pattern Race rating below the required parameter, the racecourse concerned will be notified in writing of the race's under-performance and of the Sub Committee's concern. The Sub Committee will expect the racecourse to take measures that will attempt to boost the rating of the race.
 - (iv) In assessing upgrades, admissions, downgrades or deletions of races to/from the Pattern, the Jump Racing Sub Committee will not take decisions based solely on ratings criteria. Other factors will additionally be taken into account, including:-
 - The average field size attracted by the race.
 - The effect on the shape of the British Jump Pattern as a whole, including especially geographical considerations.
